Address: Phu Thuan Ward, Ho Chi Minh City

CAREER OBJECTIVE

An enthusiastic Information Technology graduate seeking to launch a career in IT Support, backed by a solid foundation in operating systems, basic networking, and user support. Committed to leveraging strong technical knowledge to deliver effective troubleshooting, system administration, and workflow automation, ensuring high system stability and enhancing end-user productivity.

TECHNICAL SKILLS

- IT Operations & Support: Remote Support Tools (TeamViewer).
- System Administration: Microsoft 365.
- Networking: Wi-Fi Site Survey & Planning (Ekahau), VPN Configuration
- Software Development: React, Python (FastAPI), MongoDB, Git.

WORK EXPERIENCE

AITC - Asia Information Technology Center | Software Engineer

Aug 2025 – June 2026

- Delivering on-site and remote technical support for internal staff, resolving Windows OS, Office 365, and hardware issues.
- Assisting in managing the company's local network infrastructure and ensuring secure VPN access for remote employees.
- Managing the corporate website and internal chatbots.

PROJECT

Equipment Management System | Full-stack Developer

Mar 2026 - May 2026

- Software Role: Designed and developed an automated asset tracking system to manage hardware lifecycles and warranty status.
- Operations Role: Integrated automated email alerts for hardware maintenance, directly optimizing IT support workflows.

Tân Hòa Portal Chatbot | Technical Support Engineer & FE Developer

Aug 2025 – Nov 2025

- Software Role: Engineered a high-performance React dashboard to visualize system logs and user behavior in real-time.
- Operations Role: Applied structured troubleshooting to resolve server-side errors and maintained system stability to ensure seamless communication services.

EDUCATION

Ho Chi Minh City University of Technology (2021 - 2025) GPA: 3.21
Major: Information Technology Graduation: 2025

SOFT SKILLS

Aprill 2025: Communication and Teamwork skills. June 2025: CEF B1 - General English Test.
